Subject: Non-PRIA (Pesticide Registration Improvement Act) Labeling and Minor Formulation Amendment – Acceptable Revision to the Percentage of the Active Ingredient on the Basic CSF, and Label.
Product Name: EZ-Root Gel
EPA Registration Number: 82752-1
Application Date: 04/03/2018
OPP Decision Number: 539992

Dear Mr. Malone:

The amended labeling and Confidential Statement of Formula (CSF) referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, are acceptable.

This approval does not affect any terms or conditions that were previously imposed on this registration. You continue to be subject to existing terms or conditions on your registration and any deadlines connected with them.

Please note that the record for this product currently contains the following acceptable CSF:

- Basic CSF dated 04/03/2018

Any CSFs other than that listed above are superseded/no longer valid.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one (1) copy of the final printed labeling before you release this product for shipment with the new labeling. In accordance with 40 CFR § 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR § 152.3.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the U.S. Environmental Protection Agency (EPA). If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

Your release for shipment of this product constitutes acceptance of these terms. If these terms are not complied with, this registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions, please contact Alex Horansky by phone at (703) 347-0128 or via email at Horansky.alex@epa.gov.

Sincerely,

A handwritten signature in blue ink that reads "Andrew C. Bryceland". The signature is fluid and cursive, with the first name being the most prominent.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION - Harmful if swallowed or absorbed through the skin. Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water when disposing of equipment wash waters or rinsate.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

EZ-Root Gel is a thick gel used to propagate new plants from stem and leaf cuttings. EZ-Root Gel is formulated with an essential hormone that promotes rapid root generation and growth. EZ-Root Gel may be used on any type of cutting, including woody, herbaceous, and flowering ornamental species, vegetables, fruit trees, and small fruits.

TAKING CUTTINGS:

Take cuttings only from new growth on healthy plants. Trim cuttings to 2-8 inch pieces. Make cuts at a 45-degree angle. **Do not dip cuttings into container. Do not pour used gel back into the container.** Immediately dip into EZ-Root Gel, or immerse in water until ready to be dipped. The cuttings can also be re-cut prior to dipping. Spray cuttings frequently, and use a humidity dome to prevent excessive wilting.

APPLICATION INSTRUCTIONS:

First empty a small amount of EZ-Root Gel into a separate container. **Do not dip plants directly into the bottle.** Dip the cut end of the stem into EZ-Root Gel to desired depth. After EZ-Root Gel has been applied, place cuttings into the rooting medium. Depending on the species, rooting will take place in days, weeks, or months under optimal environments. Transplanting may be performed once the cuttings have rooted.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal

Pesticide Storage: Store only in original container, in a cool dry place out of the reach of children and out of direct sunlight.

Pesticide Disposal and Container Handling: Non-refillable container. Do not reuse or refill this container. If empty: place in trash or offer for recycling if available. If partially filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY

The manufacturer warrants that this product conforms to the chemical description on the label and that this product is reasonably fit for the purposes set forth in the directions for use.
